## MAKE YOUR OWN HALLOWEEN COSTUME

Get Halloween off to a spooky start this year *Skylanders SWAP Force*-style! Here are some tips of how to dress up exactly like two of our favorite *SWAP Force* characters:

### Wash Buckler

What you need:

- Pirate hat
- Pirate sword
- Belt with a big buckle
- Four pairs of blue tights
- A few newspapers

After putting on your pirate gear, stuff the tights with scrunched up newspaper pages and attach them to your belt and TA DAH - you have eight octopus legs!

### Freeze Blade

What you need:

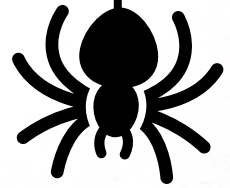

- A pair of purple leggings
- A purple top
- Purple face paint
- A pair of swimming goggles
- Gold accessories
- Wash-out blue hair spray

Put on your purple clothing and paint your face with the purple face paint. Add the golden accessories, then spray your hair blue and slick it back to match Freeze Blade's cool hair style!

Some of the *SWAP Force* characters have somehow managed to mix up their names. Can you help unscramble them by putting the letters in the right order to reveal your favorite characters?

**RATTLE SHAKE**

Element: Undead/Bounce

As it is Halloween, the Undead *Skylanders SWAP Force* characters are out in full force. Get ready to meet some of our favorite new Undead characters...

**"GO AHEAD - SNAKE MY DAY!"**

Some say Rattle Shake was the best tracker in the Cloudbreak Islands. Others say he could strike the center of a gold coin at a thousand paces. The legend of Rattle Shake was immortalized when he found himself trapped by the Black Hat Gang, the infamous group of cowboys who literally were large cows... and evil ones at that. Badly outnumbered, the ever calm Rattle Shake magically summoned every snake in the area and overtook the notorious bovines in an epic fight. The tale of his heroism was heard by Master Eon, who then recruited him to the Skylanders.

**"ROLL WITH THE PUNCHES!"**

Night Shift was the undefeated phantom-weight champion of Skylands, famous for his massive uppercut and for having once bitten an opponent in the ring. Unfortunately, a rule change made teleportation illegal and Night Shift was forced to give up his belt, officially ending his career as a boxer. Crestfallen over being disqualified from a sport he loved so dearly, his spirits picked up when he was sought out by Master Eon, who told him that his skill as a fighter could be put to great use as a member of the Skylanders.

**ROLLER BRAWL**

Element: Undead

**"LET'S ROLL!"**

Roller Brawl learned how to use her speed and cunning to become one of the toughest jammers in the Undead Roller Derby League. Having developed a strong distaste for evil when Kaos kidnapped her brothers, she joined up with the Skylanders to fight against Kaos - while never giving up on her search for her brothers.
